Microsoft Teams Certified

Our conference room solutions are certified for Microsoft Teams to create **a consistent meeting experience for users no matter where they are in the enterprise.** Employees can set up meetings and use room capabilities in the exact same manner in every room, every time they meet.

Easy Control and Management

Enjoy intuitive touch control with the MRC1010-TN touch console. **This 10.1" touch display offers an easy-to-use Microsoft Teams interface** that allows you to start, join and manage meetings—all from your fingertips.

Enterprise-Grade Security

An integrated Trusted Platform Module (TPM) 2.0 ensures **safer, more secure computing by providing hardware-based authentication and tamper detection**. In addition, the 12th generation processor delivers additional security features such as Intel® Threat Detection Technology, Control-Flow Enforcement and more.

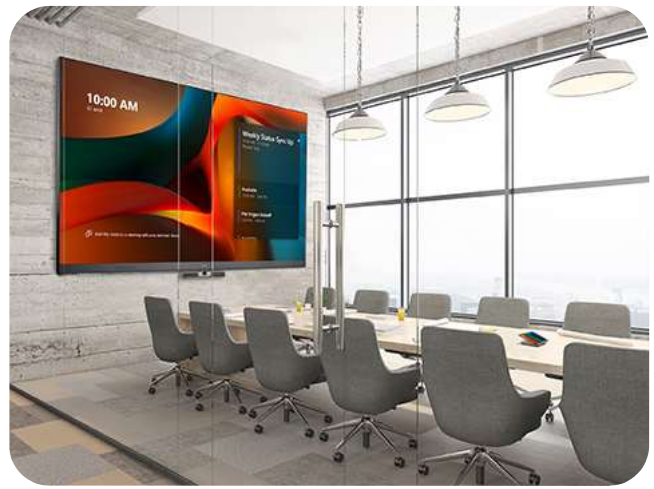

Immersive Audio/Visual Experiences

Ensure that everyone is seen, heard and understood with the UMB202 4K video bar system. Enjoy features such as Ultra HD 4K camera sensor for advanced image processing, intelligent auto-framing and Direction-of-Arrival (DOA) voice tracking technology, and a 6-mic array beamforming soundbar with 11W speaker.

Complete Solution with ViewSonic Displays

Our Microsoft Teams Rooms solutions can easily scale based on your meeting space and configuration needs. Alongside our award-winning interactive and commercial displays, these solutions allow for a more collaborative and inclusive meeting environment. With a wide array of display options to pick from, you can **transform any meeting space and skyrocket collaboration.**
